DS - Introduction

- Introduce yourself to your design sprint group
- Decide on a team name and fill in page 1 of your shared design sprint document.
URL: https://bit.ly/dataviscourse2020
- Pick one of your team members as team leader (aka "The Decider")
- Time: 15 min

DS - Map

- Who is the audience for your project? Discuss the options in your team and pick one option.
- Come up with a list of initial questions that your audience may have about the data.
- Time: 15 min

Write down your answers in your shared google doc!

DS - Sketch

- Individually, sketch one or more versions of dashboards that answer different questions you came up with.
- Time: 10 min

DS - Decide

Vote on your group's sketches.
- Each person gets four votes. You can vote for your own sketch or for the same sketch twice.
- Vote by making an 'X' below the sketch in your process book.
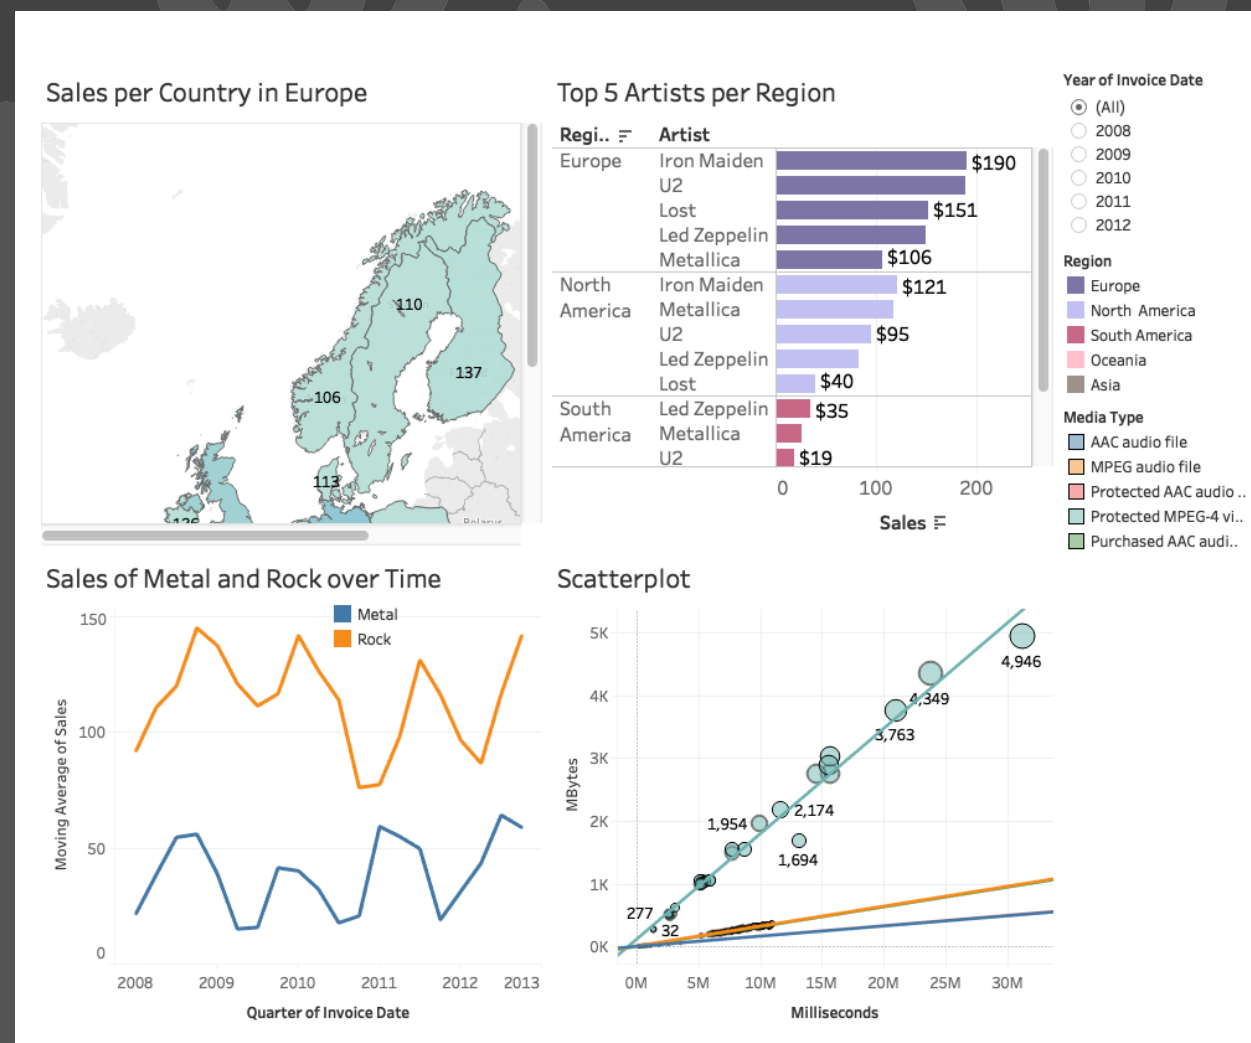

Pick visualizations that:
- Have graphical integrity
- Keep it simple
- Use effective visual channels
Time: 20 min

DS - Prototype

Create a team dashboard.
- Add a title and caption
- Make your questions and message clear.
- Time: 20 min

DS - Test

- Perform a Think Aloud study
- Get one member from another team to be your test subject

- Your team leader will be running the think around study and give a brief introduction.
- The rest of the team is silently observing and taking notes.
- Time: 15 min

DS - Wrap Up

- Improve your dashboards based on the feedback
- Decide who will present your dashboard
- Prepare to present your dashboard in under 3 minutes!
- Time: 10 min

DS - Present

- Show and tell of some of your projects.
- Time: 10 min
